None of the Above Mar 15 2022 Are all the parties the same? Will my vote really make any difference? Why is politics so hard to understand? If you've ever thought any of these things, you're not alone. What with broken promises, complicated jargon and a lack of simple and clear information, is it any wonder that voter turnout is plummeting? It's not that you don't care about the way the country is run - it's that you don't think you can change it. Well, you can. And this book aims to show you how, by setting out basic politics and answering questions we've all asked, like: Why do politicians lie? What do UKIP stand for? And what's going to happen to the NHS? You have a decision to make in the countdown to the May 2015 General Election. You have something politicians want. Your vote. An ambassador for #SwingtheVote and the presenter of Free Speech, Rick Edwards has written a pithy and succinct book explaining the power of your vote. A refreshing counterpoint to Russell Brand's sentiments on voting in his latest book, Revolution, it will make you think about politics in a completely new way.

None of the Above Jul 07 2021 Compares secular attitudes characterizing "religious nones" in the United States and Canada Almost a quarter of American and Canadian adults are nonreligious, while teens and young adults are even less likely to identify religiously. None of the Above explores the growing phenomenon of "religious nones" in North America. Who are the religious nones? Why, and where, is this population growing? While there has been increased attention on secularism in both Europe and the United States, little work to date has focused on Canada. Joel Thiessen and Sarah Wilkins-Laflamme turn to survey and interview data to explore how a nonreligious identity impacts a variety of aspects of daily life in the US and Canada in sometimes similar and sometimes different ways, offering insights to illuminate societal and political trends. With numbers of nonreligious people even higher in Canada than in the US, some believe that secular currents to the north foreshadow what will happen in the US. None of the Above asserts that a growing divide between religious and nonreligious populations could engender a greater distance in moral and political values and behaviors. At once provocative and insightful, this book tackles questions of coexistence, religious tolerance, and spirituality, as American and

Canadian society accelerate toward a more secular future.

'When you are someone that falls outside of categories in so many ways, a lot of things are said to you. And I have had a lot of things said to me.' In *None of the Above*, Travis Alabanza examines seven phrases people have directed at them about their gender identity. These phrases have stayed with them over the years. Some are deceptively innocuous, some deliberately loaded or offensive, some celebratory; sentences that have impacted them for better and for worse; sentences that speak to the broader issues raised by a world that insists that gender must be a binary. Through these seven phrases, which include some of their most transformative experiences as a Black, mixed race, non binary person, Travis Alabanza turns a mirror back on society, giving us reason to question the very framework in which we live and the ways we treat each other.

Donkey, Elephant and None of the Above Nov 23 2022 If you believe the biggest threat to democracy comes from people who don't vote, think again. None, a nonvoter, gets into an Election Day confrontation with fellow shoppers Voter and Slot Player inside a grocery store in Las Vegas, Nevada. With store employee Sweeper joining in, None explains his aversion to voting by attempting to argue there is a wide gulf separating voters from the candidates they elect. The argument escalates when the partisan Donkey and Elephant rush into the store looking for nonvoters. The argument continues outside in the store parking lot, where None stands his ground, much to the chagrin of the Donkey and Elephant.

Life..Love..&..All Of The Above Sep 21 2022 I call it freestyle poetry.

These are a collection of some of my poems, reflecting true events concerning life, love, spirituality and all of the things that we all go through from time to time. Writing about issues such as heart ache, death, ambition, even domestic violence etc. I found that the more I wrote, and the more people read, it became very therapeutic for me. Confronting serious issues in our lives helps us to overcome them, grow and focus on the things that really matter such as "life, love and all of the above". I have only begun to write. I know you will enjoy reading, thanks.

None of the Above Sep 09 2021 An insider's account of the infamous Atlanta Public Schools cheating scandal that scapegoated black employees for problems rooted in the education reform movement. In March of 2013, 35 educators in the Atlanta Public Schools were charged with racketeering and conspiracy—the same charges used to bring down the American mafia—for allegedly changing students' answers on standardized tests. All but one was black. The youngest of the accused, Shani Robinson, had taught for only 3 years and was a new mother when she was wrongfully convicted and faced up to 25 years in prison. She and her coauthor, journalist Anna Simonton, look back to show how black children in Atlanta were being deprived long before some teachers allegedly changed the answers on their students' tests. Stretching all the way back to *Brown v. Board of Education*, the landmark 1954 Supreme Court ruling that outlawed segregation in public schools, to examining the corporate-led education reform movement, the policing of black and brown citizens, and widening racial and economic disparities in Atlanta, Robinson and Simonton reveal how real estate moguls and financiers were lining their pockets with the education dollars that should have been going to the classroom.

True, False, None of the Above Oct 22 2022 True, False, None of the Above poetically explores what it means to write, read, and teach literature in a world that--at turns--rejects, embraces, or shrugs indifferently at the spiritual. This is a book on the intersection of words and belief, on how books mark and mirror our lives, and how sometimes the journey we experience on the page leads us to faith.

None of the Above Apr 16 2022 A groundbreaking story about a teenage girl who discovers she's intersex . . . and what happens when her secret is revealed to the entire school. Incredibly compelling and sensitively told, None of the Above is a thought-provoking novel that explores what it means to be a boy, a girl, or something in between. What if everything you knew about yourself changed in an instant? When Kristin Lattimer is voted homecoming queen, it seems like another piece of her ideal life has fallen into place. She's a champion hurdler with a full scholarship to college and she's madly in love with her boyfriend. In fact, she's decided that she's ready to take things to the next level with him. But Kristin's first time isn't the perfect moment she's planned—something is very wrong. A visit to the doctor reveals the truth: Kristin is intersex, which means that though she outwardly looks like a girl, she has male chromosomes, not to mention boy "parts." Dealing with her body is difficult enough, but when her diagnosis is leaked to the whole school, Kristin's entire identity is thrown into question. As her world unravels, can she come to terms with her new self?

Above Scotland Nov 11 2021 The landscape of Scotland is full of dramatic contrasts. The high, rugged peaks of the Cairngorms look down on the

rounded hills of the southern uplands. Wild moorlands run into fertile floodplains. The coastline ranges from soft sandy beaches and crystal-clear waters to jagged cliffs battered by the fierce waves of the Atlantic. Aerial photography provides unique and striking perspectives on how the people of Scotland have lived, worked, fought over, worshipped, developed and changed this land, leaving no part untouched or unaltered by human activity. The Royal Commission on the Ancient and Historical Monuments of Scotland (RCAHMS) holds the national collection of aerial photography for Scotland with millions of images dating from the 1920s to the present day. These photographs - many of which have never been seen before by the public - tell the remarkable story of a changing nation, from stone circles, Roman remains and ruined castles, to the growth of villages, towns and cities, the rise and fall of heavy industry, the country at war and the proud engineering and architecture of the modern landscape. For the first time in one volume, RCAHMS has brought together the finest images from its collection in a stunning illustration of Scotland's past, present and future.

None of the Above Dec 24 2022 The notion of redefining religion's role in our lives is not an academic exercise. It is an urgent modern imperative. This book confronts all religious dogma. It challenges the idea and practice of the need for a middle man between man and God. It invites the reader to consider the modern rise of the "Nones"--the religiously unaffiliated--and to join this magnificent silent social tsunami. It explores with vivid and compelling narrative the story of the Nones showing the who, when, where and how of this revolt against religious corruption and its preoccupation with power, money and politics. Born in the East, Lebanon, living in the West, Canada, Elie M. Nasrallah, offers the reader emotion-ridden stories as he draws from personal experience of the "Lebanese War," to highlight the role of organized religion in the Middle East and around the world. The content and style are both provocative and captivating making the theme timely and timeless. Are you fed up with orthodoxy and willing to free yourself from the shackles of conformity, outdated practices and stale tales of the tribe? If so, then this book is for you.
