Becoming an Ally, 3rd Edition Jun 24 2020 Becoming an Ally is a book for men who want to end sexism, white people who want to end racism, straight people who want to end heterosexism, able-bodied people who want to end ableism — for all people who recognize their privilege and want to move toward a more just world by learning to act as allies. Has oppression always been with us, just part of “ human nature ” ? What does individual healing have to do with social justice? What does social justice have to do with individual healing? Why do members of the same oppressed group fight one another, sometimes more viciously than they fight their oppressors? Why do some who experience oppression develop a life-long commitment to fighting oppression, while others turn around and oppress those with less power? In this accessible and enlightening book, now in its third edition, Anne Bishop examines history, economic and political structures, and individual psychology in a search for the origins of racism, sexism, heterosexism, ableism, ageism and all the other forms of oppression that divide us. Becoming an Ally looks for paths to justice and lays out guidelines for becoming allies of oppressed peoples when we are in the privileged role. A new chapter in this third edition offers a greatly expanded discussion of effective approaches to educating allies, which is meant for teachers of adults, particularly those who teach about diversity, equity and anti-oppression. In this chapter, Bishop examines the ways in which Western culture prevents us from recognizing our roles as members of privileged groups and explores how to challenge this with participatory exercises and group discussion.

Political Society in Lancastrian England Nov 29 2020 This book is a study of the political and social structure of late medieval England. Payling examines the wealth and political influence of a dozen Nottinghamshire families who dominated their county during the first half of the fifteenth century. His analysis shifts the historical emphasis from the barons at the head of their affinities to the greater gentry as members of well-defined shire establishments. Payling's carefully researched study reassesses the nature of baronial-gentry relations, and establishes the true extent of the influence of the greater gentry.

London Booksellers and American Customers Dec 11 2021 In 1994, James Raven encountered a letterbook from the Charleston Library Society detailing the ordering, processing, and shipping of texts from London booksellers to their American customers. The 120 letters, covering the period 1758-1811, provided unique material for understanding the business of London booksellers (for whom very little correspondence has survived) and Raven decided to publish an annotated edition of the letters. The letterbook, reproduced in its entirety, forms an appendix to the present volume, but Raven's study has blossomed from a relatively narrow examination of booksellers and their customers to a larger exploration of the role of books and institutions such as the Library Society in the formation of elite cultural identity on the fringes of empire. As a result, this meticulously researched book has much to offer scholars of gentry culture and

community in the eighteenth-century British Atlantic world as well as historians of the book--Publisher's Description.

More Than an Ally Feb 13 2022 The Caring Solidarity framework is both descriptive and aspirational. It is an attempt to empower White teachers to do the work of interrogating their racial privilege and join in Caring Solidarity with their African American students. The framework can be used to describe teachers who are working in Caring Solidarity with their students and to develop teachers with intention toward Caring Solidarity. We are in a unique historical moment that demands White teachers become more effective in their schools, classrooms, and communities and for researchers to find ways to describe those teachers who build relationships of solidarity with students. Considering today's tenor of the conversation around race, picking up this book and considering its contents is an act of defiance of the current climate, and/or one of devotion to the art and craft of teaching children. Caring Solidarity is not a replacement for current frameworks such as Culturally Sustaining Pedagogy or Abolitionist Pedagogy but is a map for White teachers to journey toward those pedagogies. Everyone starts from somewhere. The path is winding and long but the goal, to create an equitable and humane classroom, is worth the trip. The purpose of this theory is to point the way.

Summary of Rana Mitter's *Forgotten Ally* Nov 17 2019 Please note: This is a companion version & not the original book. Sample Book Insights: #1 The Clash between China and Japan did not begin in 1937. It had been brewing for decades. The story of the first half of China's twentieth century is the story of its love-hate relationship with its smaller island neighbor. #2 The Chinese influence was at its peak during this period. The dynasty was established by ethnic Manchus who rode into the Chinese heartland from the lands of the northeast. Even though the Manchus had conquered China's territory, they still respected China's powerful social norms. #3 China's success in the eighteenth century was largely due to their small, efficient bureaucracy. But when a new threat appeared in the early nineteenth century in the form of imperialism from the West, China was forced to sign unequal treaties that gave away their sovereignty. #4 The Treaty of Nanjing, which was signed in 1842, allowed trading rights to be granted to the trading city of Shanghai. The Qing dynasty had to rethink its entire strategy of dealing with the Western world.
