This book reports on an innovative study into the first five years of mathematics teaching: FIRSTMATH. For the first time, the study has developed a viable methodology to analyze the knowledge, skills, and dispositions of beginning mathematics teachers as well as instruments to explore the contexts where they work. The book provides a step by step account of this exploratory (proof-of-concept) research study, using a comparative and international approach, and introduces readers to the challenges entailed. The FIRSTMATH study promises the development of methods and strategies to make it possible for teacher educators and future teachers to examine (and improve on) their own practices in an important STEM area. <https://sites.google.com/view/HermanYeung> This volume includes the full proceedings from the 2016 Academy of Marketing Science (AMS) Annual Conference held in Orlando, Florida, entitled Creating Marketing Magic and Innovative Future Marketing Trends. The marketing environment continues to be dynamic. As a result, researchers need to adapt to the ever-changing scene. Several macro-level factors continue to play influential roles in changing consumer lifestyles and business practices. Key factors among these include the increasing use of technology and automation, while juxtaposed by nostalgia and “back to the roots” marketing trends. At the same time, though, as marketing scholars, we are able to access emerging technology with greater ease, to undertake more rigorous research practices. The papers presented in this volume aim to address these issues by providing the most current research from various areas of marketing research, such as consumer behavior, marketing strategy, marketing theory, services marketing, advertising, branding, and many more. Founded in 1971, the Academy of Marketing Science is an international organization dedicated to promoting timely explorations of phenomena related to the science of marketing in theory, research, and practice. Among its

services to members and the community at large, the Academy offers conferences, congresses, and symposia that attract delegates from around the world. Presentations from these events are published in this Proceedings series, which offers a comprehensive archive of volumes reflecting the evolution of the field. Volumes deliver cutting-edge research and insights, complementing the Academy's flagship journals, the Journal of the Academy of Marketing Science (JAMS) and AMS Review. Volumes are edited by leading scholars and practitioners across a wide range of subject areas in marketing science.
