It's the beginning of sophomore year, and Robin's Odd Squad friends have decided: this time, they're going to fit in. They couple up, they won't stop talking about college and their future careers, and they're obsessed with trying to act "normal." Robin knows that game well--she's been pretending for years, hoping nobody would notice the sarcastic polyglot French horn player with a bad perm in the back of the room. But there's one aspect of her identity that she knows for sure doesn't fit in with her carefully controlled image--something she's only just now realizing: Robin likes girls. How exactly is she supposed to be her true self in teeny-tiny Hawkins, Indiana? Robin is convinced the only way she can experience real life is by fleeing to Europe for the summer--aka Operation Croissant. But she has no money, no permission, and no one to share the adventure with--and it will take a heck of a lot more than that to escape Hawkins in one piece. Sprinkled with references to your favorite *Stranger Things* characters, this prequel chronicles one girl's realization that the only person she really needs to be accepted by is herself.

*The Point of Departure Apr 28 2021 On 17 March 2003, Robin Cook, Leader of the House of Commons and former Foreign Secretary, resigned from the Cabinet in protest against the coming war in Iraq. His resignation speech against that war prompted the first standing ovation in the history of the House and marked the end of the ministerial career of one of Labour's most brilliant politicians. His arguments against that war are of profound interest and importance to American readers. For the two years prior to his resignation, Robin Cook kept a diary, a personal record of Labour's second term, that forms the core of this narrative. The Point of Departure is Robin Cook's unvarnished account of this dramatic period in British political history. Though surprised by his abrupt dismissal in 2001 as Foreign Secretary, he became determined to effect the changes in Parliamentary democracy that he believed were essential if Parliament was to move into the twenty-first century. As Tony Blair told Cook on offering him leadership of the House of Commons, "This is the job for you." Drawing on firsthand experiences in the Commons and the Cabinet, of encounters in conferences and corridors and late-night conversations, Cook details his gathering disillusionment with Tony Blair's change of direction, which he believes to be profoundly mistaken, and, above all, the change in foreign policy that led the United Kingdom away from its destiny in Europe and into participation in President Bush's war in Iraq. This is the inside story of a government in power -- and of the tensions between those who govern. But above all it is the story of a politician who genuinely wanted to bring democracy closer to the people, but who saw a government increasingly detached from the values of himself and his party, and who developed a growing conviction that the government position on Iraq was morally, diplomatically, and politically wrong.*

Run, Robin, Run Feb 13 2020 "Mum always shoos us outside because we 'need fresh air'. We get more fresh air than anyone else I know." The author invites us into her world where children improvised play in their neighbourhood, growing up with little adult supervision but rushing home at mealtimes. The children's world of the '40s and '50s is vividly recreated in a way that is at once nostalgic, historic yet contemporary. Run, Robin, Run depicts with humour the author's struggle, lost in the middle of a large family with a spirit that frequently created problems for her. She was driven by a growing awareness of unfairness, injustice and defiance, tempered by the need for love. Hers is a world where the unexpected happens even on the most ordinary of days.

*The Tale of Jolly Robin* Feb 24 2021 After Jolly Robin had gulped down the fat angleworm with which his father had coaxed him to leave the nest, he clung desperately to the limb. With no food in sight he had plenty of time to look about him and to be alarmed. The day was not gone before he had a great fright. He tumbled out of the apple tree and fell squawking and fluttering upon the ground. Luckily, his mother happened to be at home. She went to Jolly at once and told him not to be afraid. "Nothing will hurt you," she said, "if you'll only keep still. But if you squall like that, the cat will find you." It may seem strange, but his mother's words frightened Jolly all the more. They scared him so thoroughly that he stopped making a noise, anyhow. And that was how he learned never to talk when he was on the ground near a house where a cat might live. "Now," said Jolly's mother, as soon as he was still, "I'll teach you a new game. Just watch me!" And spreading her wings, she flapped them, and sprang into the air. Soon Jolly was trying to imitate her. And it was not long before he found himself gliding a short distance, skimming along just off the ground. But in spite of all his efforts, he couldn't help falling again. Though his mother tried to show him how to fly into a tree-top, Jolly Robin seemed unable to learn the trick. At last Mr. Robin said to his wife: "I'll teach him the rest. You've made a good beginning. But he must learn more at once. There's no telling when the cat may come into the orchard to hunt for field-mice. And you know what would happen then.

*Taming the Four Horsemen* Oct 11 2019 A powerful polemic on the major threats facing the world today and how they can be overcome. Our world is facing catastrophes of many kinds, from the climate crisis to global outbreaks of deadly diseases. But could we look back at the collapse of previous civilisations to see what lessons might be learned? The explorer and campaigner Robin Hanbury-Tenison believes we

urgently need to tackle the four harbingers of catastrophe: The White Horse of Pestilence and Pandemics - many remote tribal societies have lives that are healthier than ours - what can we learn from them? The Red Horse of War - can we avoid conflict through promoting prosperity and renewable energy for all? The Black Horse of Famine - is now the time to use technology we've had since World War II to influence the weather? The Pale Horse of Death - will geoengineering help to undo the appalling pollution we are inflicting on the planet, especially the oceans? The lessons of Taming The Four Horsemen are clear: if we humans are to survive we need to make transformative changes now.

Modernism Nov 04 2021 Robin Walz's updated Modernism, now part of the Seminar Studies series, has been updated to include significant primary source material and features to make it more accessible for students returning to, or studying the topic for the first time. The twentieth century was a period of seismic change on a global scale, witnessing two world wars, the rise and fall of communism, the establishment of a global economy, the beginnings of global warming and a complete reversal in the status of women in large parts of the world. The modernist movements of the early twentieth century launched a cultural revolution without which the multi-media-driven world in which we live today would not have been possible. Today modernism is enshrined in art galleries and university courses. Its techniques of abstraction and montage, and its creative impulse to innovate and shock, are the stock-in-trade of commercial advertising, feature films, television and computer-generated graphics. In this concise cultural history, Robin Walz vividly recaptures what was revolutionary about modernism. He shows how an aesthetic concept, arising from a diversity of cultural movements, from Cubism and Bauhaus to Abstract Expressionism and Pop Art, and operating in different ways across the fields of art, literature, music, design and architecture, came to turn intellectual and cultural life and assumptions upside down, first in Europe and then around the world. From the nineteenth century origins of modernism to its postmodern

legacies, this book will give the reader access to the big picture of modernism as a dynamic historical process and an unfinished project which still speaks to our times.

*Sourdough* May 10 2022 Leavened by the same infectious intelligence and lovable nerdiness that made Robin Sloan's *Mr Penumbra's 24-Hour Bookstore* such a sensation, *Sourdough* marks the triumphant return of a unique and beloved young writer. Lois Clary is a software engineer at General Dexterity, a San Francisco robotics company with world-changing ambitions. She codes all day and collapses at night, her human contact limited to the two brothers who run the neighbourhood hole-in-the-wall from which she orders dinner every evening. Then, disaster! Visa issues. The brothers close up shop, and fast. But they have one last delivery for Lois: their culture, the sourdough starter used to bake their bread. She must keep it alive, they tell her - feed it daily, play it music, and learn to bake with it. Lois is no baker, but she could use a roommate, even if it is a needy colony of microorganisms. Soon, not only is she eating her own homemade bread, she's providing loaves daily to the General Dexterity cafeteria. The company chef urges her to take her product to the farmer's market, and a whole

*new world opens up. When Lois comes before the jury that decides who sells what at Bay Area markets, she encounters a close-knit club with no appetite for new members. But then, an alternative emerges: a secret market that aims to fuse food and technology. But who are these people, exactly? Sourdough is a soup of skilfully balanced ingredients: there's satire, a touch of fantasy, a pinch of SF, all bound up with a likeable narrator whose zest for life is infectious. The novel opens a door on a world that's both comforting and thrillingly odd. - The Guardian*

*Primal Mar 16 2020 Presumed dead, a group of undergraduate students who go missing on a deserted Pacific island emerge one year later in two groups of ragged (and naked) survivors. All but one of the surviving women have conceived, and two students, plus their professor, are said to have died. In the glare of the world's media, every survivor sticks to the same unconvincing version of events. Piece-by-piece the narrator examines the evidence and conducts interviews with the survivors, to work out exactly what happened on the island during that year. Slowly, a disturbing picture emerges of feral humans driven by rivalry and sexual tension ...a 'Lord of the Flies' scenario for adults that suspiciously seems to test the dead professor's theory that by nature people are no different from apes in the wild.*

*A Rose Has Cried But Has Not Died* Jun 30 2021 *In A Rose Has Cried but Has Not Died*, Norma Okun offers a harrowing, raw memoir of extreme childhood sexual abuse and child trafficking at the hands of cultists who destroyed her childhood--and continued to follow and destroy her adult life, including ensuring her parental rights were terminated and her husband's medical career was ruined. Amazingly, Norma perseveres in living to tell her truth, a quality she attributes to the wonder of meeting poet Eli Sigel, who introduced her to the philosophy of Aesthetic Realism. In Norma's own words, trying to recall suppressed memories of child abuse: is like entering a new city at night and waiting until dawn to see what it looks like. The light of the sun has left, and the moon appears, and the trees turn black. Until dawn comes and things begin to appear. Fortunately, she has persevered in a life-changing memoir no one will ever forget, as she tries to rebuild her life and stay grounded in love, God, and clarity. And the workings of Aesthetic Realism.

*Believe in Magic Sep 21 2020 'Heavenly is more than a record label, it's the absolute nectar of all that's brilliant in the culture of these island. I love the shit out of them and everything they stand for.'* Irvine Welsh *BELIEVE IN MAGIC* tells the story of Heavenly Recordings in thirty vignettes, photography and ephemera, all of which relate to landmark records, moments and characters in the label's first three decades. A label responsible for creating satellite communities of fans around the world and at all the major festivals, Heavenly was set up by Jeff Barrett in 1990 after several years working for Factory and Creation as the acid house revolution was in full swing; early releases set the tone and tempo for the mood of the decade to come - their first single was produced by perhaps the most revered acid house DJ of them all, Andrew Weatherall; and this was quickly followed by era-defining singles from Saint Etienne, Flowered Up and Manic Street Preachers, music which perhaps captures the flavour of the early '90s better than any other. Heavenly was always tuned to an aesthetic that was sensitive to the anarchic spirit of the times; defiantly eclectic with a radar set to taste and a never-ending commitment to discovering new talent. In 1994 they set up The Heavenly Sunday Social, which became one of the most influential and mythologised clubs in recent British history, where the Chemical Brothers - then the Dust Brothers - made their name. For thirteen weeks, it was the hottest nightclub on the planet. For 180 demented acolytes in a basement room below the Albany pub. Over nearly 200 releases in thirty years Heavenly have consistently produced some of the most exciting music across all genres, and this book collects rare artwork and wild anecdotal evidence into a celebration of a label that is one of the most beloved institutions on the independent landscape. *BELIEVE IN MAGIC* includes contributions from Manic Street Preachers, Beth Orton, Doves, Don Letts, Edwyn Collins, Confidence Man, Mark

Lanegan, King Gizzard and The Lizard Wizard.

Age of Discovery Jan 26 2021 The Age of Discovery is about the author's life from age 13 to 16. He uses strips of scenes during that age to reflect on their meaning and what can be learned from them. The past is our memory. Can you imagine losing your memory? Discovery is intuitive, deliberate, more cautious, prudent, considered. The innocent abandonment, the childlike disregard of judgement suddenly cannot take root. One simply cannot ignore it. Life is a big bundle of little things, little episodes. The diverse events in the universe of life serve a definite purpose. They are not accidental. Life has a higher design, the age of discovery is when we become more cautious, more worldly-wise, forced by the uncharted, the unknown. it is a time of discontinuity. The ages of restlessness, and brooding will complete the other youthful places we can look. Reflection reveals to us that we have a beginning; it follows we have an end. The book is for learning, is as much about learning, about discovery. Time is the partner, the collaborator along with events and reflection that enable us to have a view of life's blueprint and God's hand in it. God is the primary cause of all that happens in life, in the universe. He puts rulers in their places, He raises tempests, He calms the seas. But, we must first acknowledge God for what He is, and have a personal relationship with Him.
