**Shadow Bodies** Apr 22 2020 What does it mean for Black women to organize in a political context that has generally ignored them or been unresponsive although Black women have shown themselves an important voting bloc? How for example, does #sayhername translate into a political agenda that manifests itself in specific policies? Shadow Bodies focuses on the positionality of the Black woman's body, which serves as a springboard for helping us think through political and cultural representations. It does so by asking: How do discursive practices, both speech and silences, support and maintain hegemonic understandings of Black womanhood thereby rendering some Black women as shadow bodies, unseen and unremarked upon? Grounded in Black feminist thought, Julia S. Jordan-Zachery looks at the functioning of scripts ascribed to Black women's bodies in the framing of HIV/AIDS, domestic abuse, and mental illness and how such functioning renders some bodies invisible in Black politics in general and Black women's politics

specifically.

"[B]rilliant, timely, funny, heartbreaking." —Jojo Moyes, #1 New York Times bestselling author of *Me Before You* Bridget Jones's Diary meets *Americanah* in this disarmingly honest, boldly political, and truly inclusive novel that will speak to anyone who has gone looking for love and found something very different in its place. Queenie Jenkins is a twenty-five-year-old Jamaican British woman living in London, straddling two cultures and slotting neatly into neither. She works at a national newspaper, where she's constantly forced to compare herself to her white middle class peers. After a messy break up from her long-term white boyfriend, Queenie seeks comfort in all the wrong places...including several hazardous men who do a good job of occupying brain space and a bad job of affirming self-worth. As Queenie careens from one questionable decision to another, she finds herself wondering, "What are you doing? Why are you doing it? Who do you want to be?"—all of the questions today's woman must face in a world trying to answer them for her. With "fresh and honest" (Jojo Moyes) prose, *Queenie* is a remarkably relatable exploration of what it means to be a modern woman searching for meaning in today's world.

Investing in the Educational Success of Black Women and Girls Oct 09 2021 "In the powerful essays that make up *Investing in the Educational Success of Black Women and Girls*, Black women and girls are listened to, appreciated and valued in recognition of the unrelenting challenges to our existence in a world that continues to be committed to stifling our voices. What these authors know intimately is that such stifling is not because what Black women and girls are saying isn't important: It is precisely because it is. This book names the challenges Black women and girls continue to experience as we pursue our education and offers implications and recommendations for practitioners, teachers, administrators, and policymakers. [It] needs to be read widely and deeply studied as much for its formations and beautiful representations of Black women and girls as its recommendations. It is the truth-telling we need today and a groundbreaking resource we need today and beyond."--Cynthia B. Dillard (Nana Mansa II of Mpeasem, Ghana), Athens, Georgia; and Cape Coast, Central Region, Ghana While figures on Black women and girls' degree attainment suggest that as a group they are achieving in society, the reality is that their experiences are far from monolithic, that the educational system from early on and through college imposes barriers and inequities, pushing many out of school, criminalizing their behavior, and leading to a high rate of incarceration. The purpose of this book is to illuminate scholarship on Black women and girls throughout the educational pipeline. The contributors--all Black women educators, scholars, and advocates--name the challenges Black women and girls face while pursuing their education as well as offer implications and recommendations for practitioners, policymakers, teachers, and administrators to consider in ensuring the success of Black women and girls. This book is divided into four sections, each identifying the barriers Black girls and women encounter at the stages of their education and offering strategies to promote their success and agency within and beyond educational contexts. In Part One, the contributors explore the importance of mattering for Black girls in terms of redefining

success and joy; centering Black girl literacy pedagogies that encourage them to thrive; examining how to make STEM more accessible to them; and recounting how Black girls' emotions and emotional literacy can either disempower them or promote their sense of agency to navigate educational contexts. Part Two uncovers the violence directed toward and the criminalization of Black women and girls, and how they are situated in educational and justice systems that collude to fail them. The contributors address incarceration and the process of rehabilitation and reentry; the outcomes of disciplinary action in schools on women who pursue college; and describe how the erasure and disregard of Black women and girls leaves them absent from the educational policies that deeply affect their lives and wellbeing. Part Three focuses on how Black women are left to navigate without resources that could make their collegiate pathways smoother; covers how hair politics impact their acceptance in college leadership roles, particularly at HBCUs; illuminates the importance of social/emotional and mental health for Black undergraduate women and the lack of adequate resources; and explores how women with disabilities navigate higher education. The final part of this book describes transformative approaches to supporting the educational needs of Black women and girls, including the use of a politicized ethic of care, intergenerational love and dialogue, and constructing communities, including digital environments, to ensure they thrive through their education and beyond.

Black Women, Black Love Apr 03 2021 In this analysis of social history, examine the complex lineage of America's oppression of Black companionship. According to the 2010 US census, more than seventy percent of Black women in America are unmarried. Black Women, Black Love reveals how four centuries of laws, policies, and customs have created that crisis. Dianne Stewart begins in the colonial era, when slave owners denied Blacks the right to marry, divided families, and, in many cases, raped enslaved women and girls. Later, during Reconstruction and the ensuing decades, violence split up couples again as millions embarked on the Great Migration north, where the welfare system mandated that women remain single in order to receive government support. And no institution has forbidden Black love as effectively as the prison-industrial complex, which removes Black men en masse from the pool of marriageable partners. Prodigious research and deeply felt, Black Women, Black Love reveals how white supremacy has systematically broken the heart of Black America, and it proposes strategies for dismantling the structural forces that have plagued Black love and marriage for centuries.

**The Politics of Public Housing** Feb 19 2020 In this collective biography, Rhonda Y. Williams takes us behind, and beyond, politically expedient labels to provide an incisive and intimate portrait of poor black women in urban America. Drawing on dozens of interviews, Williams challenges the notion that low-income housing was a resounding failure that doomed three consecutive generations of post-war Americans to entrenched poverty. Instead, she recovers a history of grass-roots activism, of political awakening, and of class mobility, all facilitated by the creation of affordable public housing. The stereotyping of black women, especially mothers, has obscured a complicated and nuanced reality too often warped by the political agendas of both the left and the right, and has prevented an accurate understanding of the successes and failures of government anti-poverty policy.

It was just magic to her. And it still is. Black Women Under State: Surveillance, Poverty & the Violence of Social Assistance Dec 19 2019 The lives and conditions of Black women are inseparable from, and inextricably linked to, all dimensions of social and political life. *Black Women Under State* centres the realities of Black women, both in process and theory, who are living at the intersections of race, poverty, surveillance, and social services. Abdillahi, who is uniquely positioned as a community organizer, care worker, public intellectual, and scholar, engaged twenty women living at these life-intersections in the greater Toronto area. The text undertakes a deep and studied inquiry into these women's subjective experiences of surveillance while on the province of Ontario's social assistance program Ontario Works, and interrogates the dimensional effects of those experiences. Offering a timely and crucial contribution to the discourse around abolition, Abdillahi makes explicit the ways in which social systems are made opaque so that we don't connect them to the carceral state; this concept of carceral care talks to abolition as the broad concept that it is? a fully-embraced understanding that abolition dismantles systems of policing that extend beyond the institution we call the police. Three major themes emerge through her inquiry: surveillance, poverty, and morality? each interconnected to a larger social and public policy discourse. Abdillahi employs Critical Race Theory and Black Feminist Thought as primary theoretical lenses as she animates the lives of these women, alongside and in conversation with existing research, theory and practice, revealing direct links among their experience, in order to demonstrate the shared, longstanding, and ongoing historicity of the interconnectedness of Black women's experience globally. The vast majority of the book's citations are from Black Canadians, giving the text its own narrative around citational practice. Through a dynamic interlacing of contemporary critical thought and lived experience, *Black Women Under State* contributes to filling a gap in social policy literature, which has typically disregarded the subjective experiences of Black women or treated them as a mere addendum.
