This book has been considered
by academicians and scholars
of great significance and value
to literature. This forms a part
of the knowledge base for
future generations. We have
represented this book in the
same form as it was first
published. Hence any marks
seen are left intentionally to
preserve its true nature. Evil
has been eradicated. The City
has been established. And
citizens may only enter after
having the 'evil' part of their

brain removed. They are labelled on the System according to how 'good' they are. If they show signs of the evil emerging, they are labelled a K . . . But no one knows quite what that means. Only that they disappear, never to be seen again . . . Bowser the Hound, outsmarted so often by Old Man Coyote, is taken advantage of once again when the coyote leads him on a long chase that ends far from the canine's home. In the Cities of Coin and Spice and In the Night Garden introduced readers to the unique and intoxicating imagination of Catherynne M. Valente. Now she weaves a lyrically erotic spell of a place where the

grotesque and the beautiful reside and the passport to our most secret fantasies begins with a stranger's kiss.... Between life and death, dreaming and waking, at the train stop beyond the end of the world is the city of Palimpsest. To get there is a miracle, a mystery, a gift, and a curse—a voyage permitted only to those who've always believed there's another world than the one that meets the eye. Those fated to make the passage are marked forever by a map of that wondrous city tattooed on their flesh after a single orgasmic night. To this kingdom of ghost trains, lion-priests, living kanji, and cream-filled canals come four

travelers: Oleg, a New York locksmith; the beekeeper November; Ludovico, a binder of rare books; and a young Japanese woman named Sei. They've each lost something important—a wife, a lover, a sister, a direction in life—and what they will find in Palimpsest is more than they could ever imagine. Will Hodges' life is a mess! His mother is dead, he has no friends and he thinks he is being followed by a strange group of people who tell him they know him. But Will can't remember them . . . at first. And when he does, he doesn't like what he can remember. While Will is struggling with unsettling memories, he learns

that his past is a lot deeper than many people's, and he has to find out if he is strong enough to break links with the powerful hold that history has on him. This compelling novel, set in an alternate future, challenges readers to consider the role we all have to play in making our society, and asks how much we are prepared to stand up for what's right. For Robert Jacklin - packed off without warning to boarding school in Zimbabwe - everything is terrifyingly new. Branded an outsider from the moment he opens his mouth and unable to decode the subtle power struggles of the classroom, he longs for the safety of his old life in England.

And then he meets Ivan. Clever, cunning, seductive Ivan, who offers him not only friendship, but power. As Robert is drawn slowly into Ivan's destructive web, he begins to question things he'd always held true and, as Ivan's grip tightens, he finds himself caught up in something far more dangerous than he could have imagined. There is no escape. The clock is ticking. The future world has been divided into sectors—each the same as the other. Surrounded by thick steel fences, there is no way in and no way out. Yet a cyborg army penetrates each sector, picking off its citizens one by one, until no one is left. Behind the sectors' thick walls,

the citizens wait to die. A new world has been created, and its rulers are incredibly selective on who will become a citizen, so only a few will survive the attacks. The New World only wants those with important roles in society to help create a more perfect future. Sixteen-year-old Sia is part of a family that is far too ordinary to be picked to live. According to the digital clock that towers high above her sector, she has only fifteen days to live. Sia has seen the reports and knows a horrific death is in store for her, but she is determined to make the most of her final days. She refuses to mourn her short life, instead promising herself that she'll stay strong,

despite being suffocated by her depressed mother and her frightened best friend. Just when Sia feels more alone than ever, she meets Mace, a mysterious boy. There is something that draws Sia to him, despite his dangerousness, and together, they join a group of rebels and embark on an epic journey to destroy the New World and its machines, and to put an end to the slaughter of innocent people. Cat Manno and her grandfather Victor made a pact that one day, just for the hell of it, they'd take the subway and stay on the A-train until the very end of the line where the last narrow spit of land runs out into the ocean at Far

Rockaway. This isn't that day. On the first page Cat is knocked down by a speeding fire truck whilst crossing 55th St and 3rd Ave in Central Manhattan. She wakes up in a world made from all the books her grandfather used to read to her, peopled by some of the most memorable heroes of classic adventure fiction, brought vividly back to life. Cat must earn their friendship and help as she begins an odyssey and epic quest to find the mythic Castle at the World's End. And the name of that distant, mythic, wave-tumbled fastness? It is, of course, the castle of Far Rockaway ... If you enjoy reading good books; swashbuckling adventures with

sword fights and pirates - then Far Rockaway is the book for you. Join Cat as she embarks on the journey of a lifetime ... Set against the backdrop of the French Revolution and its impact on British politics, this action-driven novel shows once again that Celia Rees is one of our very best writers for teenage readers. Wild and beautiful, spoilt and wilful, Sovay finds that her cosseted upbringing in rural England has not prepared her for life as a highway robber, for defending the honour of her family or for trying to save herself from corruption and evil. As Sovay becomes more and more embroiled in adventures she could never

have imagined, a story of dark intrigue, thwarted passions and sinister intentions is revealed to her. Will she be able to survive, and if she does so, at what cost? Receiving a text from Sasha, my girlfriend, at work was always risky. Especially when she wanted to know if her girlfriend was horny. A short and sweet (and filthy) story. For fans of Sarah Dessen, Jennifer Smith, E.L. Lockhart, and John Green, this delightful, often comic coming-of-age novel stars the lovable, brokenhearted River, the streets of LA, and an irresistible cast of characters. Seventeen-year-old River doesn't know what to do with himself when Penny, the girl he

adores, breaks up with him. He lives in LA, where nobody walks anywhere, and Penny was his ride; he never bothered getting a license. He's stuck. He's desperate. Okay . . . he's got to learn to drive. But first, he does the unthinkable—he starts walking. He stumbles upon a support group for teens with various addictions. He fakes his way into the meetings, and begins to connect with the other kids, especially an amazing girl. River wants to tell the truth, but he can't stop lying, and his tangle of deception may unravel before he learns how to handle the most potent drug of all: true love. Praise for *Tell Us Something True* "I promise

you'll fall in love with River Dean, even though he's a faker, a stalker, a non-driver, a bad dancer, a bad friend and a codependent mess. He's funny and he's true. His heart is smashed six different ways and he's trying to mend it with tacos and lies—but isn't that true of all of us?" —E. Lockhart, *New York Times* bestselling author of *We Were Liars* "A heartfelt tale that elevates truth over passion and friends over lovers. Reinhardt keeps it real. Much respect." —Matthew Quick, author of *The Silver Linings Playbook* and *Forgive Me*, Leonard Peacock "A sharp-witted, hilarious, and addicting novel about being lost and

discovering your best self. Highly recommended!” —Adam Silvera, New York Times bestselling author of *More Happy Than Not* “Oh, how I love a novel where the hero ties himself up, Houdini style, and dives into his own predicament. Once again Dana Reinhardt has written a charming, compassionate, very clever comedy, and this one reminds us how a big lie can reveal the truth.” —Laura McNeal, author of *Dark Water*, National Book Award Finalist “*Tell Us Something True* is hope, it is humanity, it is original, funny, wrenching, real, and intelligently surprising.” —Beth Kephart, author of *Small Damages*,

Going Over, and *This Is the Story of You* “When you start reading a Dana Reinhardt book, it’s like discovering a new friend. By the time you’ve turned the final page it’s like saying goodbye to your best friend, and I can think of nothing better to ask of a writer.” —Markus Zusak, author of *The Book Thief* The heart-breaking and at times humorous look at one teen's life after the death of his best friends and how he navigates through the guilt and pain by celebrating their lives--and ultimately learns to forgive himself. What would you say if you could spend one last day with someone you lost? One day Carver Briggs had it all--

three best friends, a supportive family and a reputation as a talented writer at his high school, Nashville Academy for the Arts. The next day it all crashed and burned, literally, after he wrote them out of existence with an inane text sent to his friend Mars--the last words his friends ever see. Carver can't stop blaming himself for the fatal crash and he's not the only one. Eli's twin sister is trying to freeze him out of school with her death-ray stare. Even worse, Mars's father, a powerful judge, pressures the district attorney to open a criminal investigation into Carver's actions. But Carver has some unexpected allies: Eli's girlfriend, who is

the only person to stand by him at school, and Blake's grandmother, who asks Carver to spend a Goodbye Day with her--having him stand in as Blake for one last day doing all their favorite things so they can share memories and say a proper goodbye. Soon Eli and Mars's families are asking for a Goodbye Day with Carver--but he's unsure of their motives. Will they all be able to make peace with their losses, or will these Goodbye Days bring Carver one step closer to prison or a complete breakdown? The chilling, powerful sequel to Gemma Malley's acclaimed debut, *The Declaration*. For fans of *The Hunger Games* In a world

It appears Richard Pincent will stop at nothing to get what he wants, even if it means ripping Peter and Anna's new life apart. For use in schools and libraries only. Best friends Sophie and Kylie have always done everything together, with Kylie leading the way, but when Sophie is good at cheerleading

and Kylie is not, Sophie is torn between her friendship with Kylie and her cheerleading. Against all odds, the couple that swept you away in *TAKEN BY STORM* is back. Thrilling, passionate and beautifully written, this dystopian novel is perfect for fans of *The Hunger Games*. What does it mean to have a soul whose will to live knows no limits? This gripping psychological thriller

establishes Martyn Bedford as a hot new literary talent for young adults. Friday, December 14th. Fourteen-year-old Alex rushes home that night to beat his curfew. The next morning, he wakes up in an unfamiliar house, in a different part of the country, and it's the middle of June. Six months seem to have disappeared overnight. Inheritance Games In this gripping YA thriller, a teenage girl's shocking discovery reveals that everyone in her life is lying to her-and if she doesn't figure out the truth, she might be the one to pay the price. Nobody in sixteen-year-old Beckett's life seems to be telling the whole story. Her boyfriend Jake keeps hiding texts, which could mean he's cheating on her. Her father lied about losing his job and so much more before his shocking death. And everyone in school seems to be whispering about her and her family behind her back. But none of that compares to the day Beckett finds the body of a newborn baby in a gym bag-Jake's gym

bag-on the floor of her high school locker room. As word leaks out, rumors that Beckett's the mother take off like wildfire in a town all too ready to believe the worst of her. Beckett soon finds herself facing increasingly dangerous threats and accusations. Nobody believes her side of the story, and as the police investigation unfolds, she discovers that everyone has a secret to hide and the truth could alter everything she thought she knew. A page-turning thriller set in a small Southern community, *Every Single Lie* is a jaw-dropping, twisty must-read for fans of *Sadie*. "We walked toward the part of the library where the air

smelled as if it had been interred for years..... Finally, we got to the hallway where the wooden floor was the creakiest, and we sensed a strange whiff of excitement and fear. It smelled like a creature from a bygone time. It smelled like a dragon." Thirteen-year-old Juan's favorite things in the world are koalas, eating roast chicken, and the summer-time. This summer, though, is off to a terrible start. First, Juan's parents separate and his dad goes to Paris. Then, as if that wasn't horrible enough, Juan is sent away to his strange Uncle Tito's house for the entire break! Uncle Tito is really odd: he has zigzag eyebrows; drinks ten cups of smoky tea a day;

and lives inside a huge, mysterious library. One day, while Juan is exploring the library, he notices something inexplicable and rushes to tell Uncle Tito. "The books moved!" His uncle drinks all his tea in one gulp and, sputtering, lets his nephew in on a secret: Juan is a Princeps Reader--which means books respond magically to him--and he's the only person capable of finding the elusive, never-before-read Wild Book. Juan teams up with his new friend Catalina and his little sister, and together they delve through books that scuttle from one shelf to the next, topple over unexpectedly, or even disappear altogether to find The Wild Book and

discover its secret. But will they find it before the wicked, story-stealing Pirate Book does? When a Pincent Pharma truck is ambushed by the Underground, its contents come as a huge surprise - not drugs, but corpses in a horrible state. It appears Longevity isn't working and the drugs promising eternal youth are failing to live up to their promises. A virus is sweeping the country, killing in its wake, and Longevity is powerless to fight it. When Richard Pincent of Pincent Pharma suggest that the Underground has released the virus, something has to be done to put the story straight and once and for all alert everyone to the truth. Praise

for The Declaration- 'A well-imagined and endlessly thought-provoking story, which plays on our own environmental fears and obsession with youth' - Sunday Telegraph 'Poignant, thought-provoking, dystopian. Sharing the visionary quality of books such as The Handmaid's Tale and How I Live Now, this intensely moving debut is one of those rare books that changes the way you see the world.' - Publishing News 'Gemma Malley proved herself a new author to be reckoned with after writing The Declaration...Malley's outstanding novel takes us forward in time to a place where only the rich or well-

connected could afford to drive on a regular basis' - Glasgow Herald Praise for The Returners- 'A challenging, compelling and flawless novel from an emerging talent...Metaphysical teenage fiction at its best' - The Bookseller Josh has 25 minutes left to live. Lying alone in a pool of blood, Josh hasn't much time to think. Yesterday he stabbed his best mate, and now it's happened to him. But there are questions he can't get out of his head. Like how did he get into this mess? Will anyone find him in time? Will his girlfriend forgive him, and what really happened to his older brother. As his life slips away, the events of the last 24 hours start

to look very different... Twenty-first century teenager Kyle was hypnotised when humanity was upgraded to 1.0 and he, incompatible with the new technology, exposes its terrifying impact in a tape-recording found by the superhumans of the future. The unimaginable has happened - Longevity, the drug that is supposed to guarantee eternal youth, isn't working. A virus is sweeping the country, killing many in its wake, and Longevity is powerless to fight it. The Outside is frightened, death is suddenly a possibility and Pincent Pharma need someone to blame. The Underground are accused of deliberately contaminating a

batch of the drugs and Peter and Anna are hunted down. But someone knows the truth . . . Will they speak up or watch as everything is torn to pieces? The thrilling conclusion to the brilliant dystopian trilogy that began with The Declaration. For fans of The Hunger Games. From Robert Charles Wilson, the Hugo Award-winning author of Spin, comes Julian Comstock, an exuberant adventure in a post-climate-change America. In the reign of President Deklan Comstock, a reborn United States is struggling back to prosperity. Over a century after the Efflorescence of Oil, after the Fall of the Cities, after the False Tribulation, after the

days of the Pious Presidents, the sixty stars and thirteen stripes wave from the plains of Athabaska to the national capital in New York. In Colorado Springs, the Dominion sees to the nation's spiritual needs. In Labrador, the Army wages war on the Dutch. America, unified, is rising once again. Then out of Labrador come tales of the war hero "Captain Commongold." The masses follow his adventures in the popular press. The Army adores him. The President is...troubled. Especially when the dashing Captain turns out to be his nephew Julian, son of the President's late brother Bryce—a popular general who

challenged the President's power, and paid the ultimate price. As Julian ascends to the pinnacle of power, his admiration for the works of the Secular Ancients sets him at fatal odds with the Dominion. Treachery and intrigue will dog him as he closes in on the accomplishment of his lifelong ambition: to make a film about the life of Charles Darwin. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. From William C. Morris and Edgar Award finalist Leah Thomas comes an ethereal, thought-provoking YA tale about a teen who can see ghosts . . . and helps them avenge their

deaths. Dani's best friend, Sarah, is a ghost. But maybe that's normal when you've spent your childhood running from an abusive parent. Dani and Sarah might be more than friends, though Dani dares not say so. Dani is afraid that if he tells Sarah he's trans, she won't bother haunting him anymore. Sarah's got good reason to distrust boys, having been strangled by one. After Sarah and Dani come across another ghost haunted by her own brutal murder, they set out to bring peace and safety to spirits like her. But when an old rival reenters Dani's life, their unexpected friendship gives Dani a strange new feeling of belonging. As Dani

starts to find his place in the living world, he'll need to let go of his ghosts. Equal parts chilling, raw, and emotionally resonant, acclaimed author Leah Thomas's ghost story for the #MeToo era is about reclaiming trauma and finding peace among true friends. 2008 Printz Award Winner Melina Marchetta crafts an epic fantasy of ancient magic, exile, feudal intrigue, and romance that rivets from the first page. (Age 14 and up) Finnikin was only a child during the five days of the unspeakable, when the royal family of Lumatere were brutally murdered, and an imposter seized the throne. Now a curse binds all who remain inside Lumatere's walls,

and those who escaped roam the surrounding lands as exiles, persecuted and despairing, dying by the thousands in fever camps. In a narrative crackling with the tension of an imminent storm, Finnikin, now on the cusp of manhood, is compelled to join forces with an arrogant and enigmatic young novice named Evanjalín, who claims that her dark dreams will lead the exiles to a surviving royal child and a way to pierce the cursed barrier and regain the land of Lumatere. But Evanjalín's unpredictable behavior suggests that she is not what she seems -- and the startling truth will test Finnikin's faith not only in her, but in all he knows to be true

about himself and his destiny. Kyle Straker volunteered to be hypnotized at the annual community talent show, expecting the same old lame amateur acts. But when he wakes up, his world will never be the same. Televisions and computers no longer work, but a strange language streams across their screens. Everyone's behaving oddly. It's as if Kyle doesn't exist. Is this nightmare a result of the hypnosis? Will Kyle wake up with a snap of fingers to roars of laughter? Or is this something much more sinister? Narrated on a set of found cassette tapes at an unspecified point in the future, *Human.4* is an absolutely

chilling look at technology gone too far. To survive you need people watching you, following your every move. That's the only currency now: being interesting, being liked ... And, of course, you have to update every fifteen minutes. It means everyone knows where you are, what you're doing; it means that there are no secrets... Everybody watches everyone else; nothing is hidden. And for those who fail to 'update' every fifteen minutes, the consequences are deadly. Evie and Raffy may have escaped the City but they still fear for their lives. Now the only person who can help them is Frankie, a total stranger, the most popular girl in the world,

watched every second by millions of people. But Frankie has other ideas... And all the time, Lucas is waiting desperately for word from Evie, word that she is coming back to him. The conclusion to Gemma Malley's terrifyingly dark vision of our near future will leave you gasping for air. After their parents' divorce, teenaged sisters April, May, and June recover special powers from childhood and use them to cope with moving to a new home and high school, but wonder if the gifts have a greater purpose. The #1 New York Times bestselling series returns with a fresh new cover in time for the highly anticipated HBO MAX TV series reboot - 3 books

We're smart, we've inherited classic good looks and we know how to party. It's a luxe life, but someone's got to live it.' The first three novels in the established and well-loved Gossip Girl series about the most popular high school crowd. Set in glamorous New York City the narrative takes a voyeuristic look into the troubled, raw and indulgent lives of Upper East Side's finest. An excellent animal tale by a master storyteller, with a few illustrations by Harrison Cady. Old Granny Fox and the

young Reddy are having a tough time finding food in the winter. Reddy Fox is quite the know-it-all and even mocks the older fox when he doesn't understand what she's doing but Granny is remarkably patient and shows him that he still has a lot to learn. Reddy Fox learns many lessons in life from his Granny. The first book in a YA trilogy set in a reproductively dystopian future. Reminiscent of Margaret Atwood and Aldous Huxley, but for teens. It's the year 2140 and Anna shouldn't be alive. Nor should any of the children she lives with at Grange Hall. The facility is full of kids like her, kids whose parents chose to recklessly

abuse Mother Nature and have children despite a law forbidding them from doing so as long as they took longevity drugs. To pay back her parents' debt to Mother Nature, Anna will have to work for the rest of her life. But then Peter appears at the hall, and he tells a very different story about the world outside of the Grange. Peter begs Anna to escape Grange Hall, and to claim a life for herself outside its bleak walls. But even if they get out, they still have to make their way to London, to Anna's parents, and to an underground movement that's determined to bring back children and rid the world of longevity drugs. Defining, historicizing, and
