Where most people seem to think that there is no alternative but to answer correctly or to lie, she recognized an endless variety of things to say or not say. Sometimes she would look pleasantly at the inquirer, with those deep kind eyes of hers, and ask: "Why do you wish to know?" Not sarcastically, not offensively at all, but as if she really wanted to know why they wanted to know. It was generally difficult for them to explain the cause of their curiosity, but if they did; if they said it was just interest, a kindly human interest in her, she would thank them for the interest, and ask if they felt it about every one. If they said they did, she would say, still with her quiet gentleness: "And is it customary, when one feels interested in a stranger, to ask them questions? I mean is it a - what you call a compliment? If so, I thank you heartily for the compliment." My husband. My Tormentor. The most notorious man in the city offers me a job. Act as his dead wife. Adrian Volkov isn't the type of person who takes no for an answer. He commands with an iron fist and all his orders are met. When he approaches me with the offer, I have two options. Go to prison or put myself under his wrath. I choose to have a roof over my head. What's so hard about acting, right? Wrong. The moment I step into his wife's shoes, everything spirals out of control. My only way of survival is through Adrian. Or is it? This book is part of a trilogy and is not standalone. When Jennifer Scott and Lucy Wilson were injured in accidents near their respective homes in Cyprus and England, they had no inkling of the connection that was formed when their consciousnesses collided and linked them together within their dreams. Both are ordinary women. Living their lives. They have never met. Yet when Jennifer goes to sleep each night, she finds herself dreaming how Lucy came to be the woman she is today. She learns of the dream house Lucy found in the Yorkshire Dales, the two daughters she adores and her happy, but ordinary, life with her husband, Charlie. When Lucy's head hits the pillow, she is immediately transported to Jennifer's world in Cyprus. There she learns how Jennifer met Ilan - the love of her life - and she experiences the loneliness and worry this relationship causes Jennifer. Why is each woman dreaming the other's life? Is it real? What does it mean? More importantly, if one of them stops dreaming what will happen to the other? The author explains how this movement was shaped in a country with an authoritarian Islamist regime, how it grew, and what its achievements are, including its failures and setbacks. The project will appeal to scholars and students in the fields of Middle Eastern politics and sociology, Iranian politics, democracy, and the US-Iran relations. This is the story of my journey, as an LGBT author and singer-songwriter navigating the ever-changing media landscape, and constant cultural upheavals of the early 21st century. My journey towards embracing a positive attitude to life, to our differences, and to the world in general. I have chosen to tell my story in the hope that it will inspire others, and I hope that more people do this too. I am grateful to the stories of other people, and their life journeys, for inspiring me over the years, and getting me through hard times. Life is interesting, and what we learn from it can be unexpected. I wish to contribute to the vast pool of stories already out there, in the hope that one day, my story could be useful to another person out there, who needs a bit of inspiration. This book combines content from my 2021 works 'A Trans Popstar's Story: Being Trans and Chasing Dreams During Quarterlife', 'Eight Lessons from my Quarter Life Period' and 'The Background and Context of Moral Libertarianism' to paint a complete picture of my journey so far. The early 21st century is a time of unprecedented opportunity for those coming of age. It is a time when many young adults set out to achieve their dreams, be it starting their own business, starting a political movement, or propelling themselves to superstardom. Angelle's dream is to become Cultural Royalty of Pacificland, thus achieving what her mother couldn't. Her vision is based on freedom, dreams, love and fairness for all. However, she soon finds that whilst change appears to be in the air, the resistance is often even greater. And when the forces against change mobilise, those wanting a slice of success often bow to their agenda, while those fighting for change simply give up. With her own dreams on the line, will Angelle stay true to her values? And if she does, will it be enough to make a positive difference? Life isn't meant to be easy, but are there rewards for the brave at the end? **BACKGROUND:** *The Princess's Spirit* is an eternal ideal, based on values of optimism, bravery, vision, love and compassion. In different eras it manifests in different contexts. The first decade of the 21st century (2000-2009), often called the noughties, was both a time of hope and despair, for different reasons. It was a time when technology began to enable new ways of communication, with profound impact on culture and politics. In this way, it was a time of unprecedented opportunity. It was also a time when brave new ideas, like marriage equality for same-sex couples (which is explored in this book), began to be seriously considered. But this and other movements would face great difficulties before their eventual successes. Set against this context are many lives who fought for a better world, including the author herself. Whilst this is a fictional work, it has captured the spirit of the times as the author experienced it, and many of the little stories contained within were inspired partially by real life events experienced by the author and her friends. Imagine finding a suitcase with a little girl stuffed inside and realizing she looks exactly like you. Agent Abby Kane discovers an unlikely connection with a lone little girl abandoned outside FBI headquarters: They look exactly alike. Abby brings the girl home with her to learn more, thinking a family environment might jog the girl's memory. Her efforts pay off as the investigation points toward a human trafficking ring. But as Abby gets to know the girl, she begins to think the girl wasn't kidnapped or trafficked. She was sent. As Abby continues to dig, indicators suggest something else is at play, something unthinkable... and quite frankly, unexplainable. Angelle's dream is to become Cultural Royalty of Pacificland, thus achieving what her mother couldn't. Her vision is based on freedom, dreams, love and fairness for all. However, she soon finds that whilst change appears to be in the air, the resistance is often even greater. While the early 21st century is a time of opportunity for some, many people remain left behind, and tension and dissatisfaction is the order of the day in many areas of life. The increasing pitch of the culture wars, and the influence of global movements from the Tea Party to the Occupy Protests, also combine to make Pacificland a daily ideological warzone. Meanwhile, Pacificland gets caught up in a meaningless political stalemate, with reforms like marriage equality stalled seemingly forever. With her own dreams on the line, will Angelle stay true to her values? And if she does, will it be enough to make a positive difference? Life isn't meant to be easy, but are there rewards for the brave at the end? While Angelle's story is fictional, the perspective taken on the social and political movements of the 2000s and 2010s are inspired by real life accounts, and represent the very real perceptions of real people living today. Natalie is a young trans woman living in the early 21st century. Her diaries chart both her own transition story, and the cultural and political events of the 2000s and 2010s in the US, UK and Australia. In the beginning, she had felt rejected by feminism all her life, and also decided to reject feminism. Feminism's complicated relationship with marriage equality, something she was passionate about, became yet another reason for her to reject feminism. However, as feminism changed, so did her perspective. Did Natalie ultimately decide to become a feminist? And if so, on what terms? From the author: "I could have written a manifesto of inclusive feminism, but I know that some of you would still be unconvinced. So instead here is a story, inspired by real life stories I have known. I am sure many of you will be convinced of the need for a more inclusive feminism after reading this. While Natalie's story is fictional, the perspective taken on both being trans and the social and political movements of the 2000s and 2010s are inspired by real life accounts, and represent the very real perceptions of real people living today. Stories like Natalie's are out there everywhere, and if feminism is to be truly inclusive and effective, the messages contained in this book should be seriously considered." The escalating arms race between the empire nations will put not only the king but this young boy in grave danger. A terrible war. Billy's family is inextricably linked with the Fitzherberts, the aristocratic owners of the coal mine where he works. And when Maud Fitzherbert falls in love with Walter von Ulrich, a spy at the German embassy in London, their destiny also becomes entangled with that of Gus Dewar, an ambitious young aide to Woodrow Wilson, and two orphaned Russian brothers, the Peshkovs, whose plan to emigrate to America falls foul of conscription, revolution and imminent war. A revolution that will change everything. When Russia convulses in bloody revolution and the Great War unfolds, the five families' futures are entwined forever, love bringing them closer even as conflict takes them further apart. What seeds will be sown for further tragedy in the twentieth century and what role will each play in what is to come? Continue the captivating Century Trilogy with *Winter of the World* and *Edge of Eternity*. The impossible has spawned the unthinkable. In 2021, a quantum military experiment goes horrifically wrong. A multinational taskforce of ultra-modern warships is suddenly transported back in time to 1942• right into the path of the US naval battle group bound for Midway Atoll. History is rewritten in an instant as the future smashes into the past, and high-tech hardware goes head to head with World War Two technology. In the chaos that ensues, thousands are killed, but the maelstrom has only just begun. The veterans of Pearl Harbour have never seen a helicopter, or a cruise missile - let alone nanotechnology, ceramic bullets, and F22 Raptor stealth jetfighters. Allied and Axis forces are then caught in a desperate struggle to gain the upper hand - each hoping to tip the balance with a fist full of twenty first century firepower. What happens next is anybody's guess • and everybody's nightmare• "Jason Gurley will be a household name one day." – Hugh Howey Book 2 of *The Movement Trilogy* Earth has become an artifact of history. Children are no longer taught that it is the birthplace of mankind. For them, history begins with the Citadel, the enormous institution that governs the system with a heavy, vicious fist. Three hundred years have passed since the events of Book 1. The Machine class, oppressed and broken, has scattered throughout the system, building outposts and colonies on every surface they can find. They rely upon the Onyx class, the privileged ones, for sustenance. But the most brutal attack in human history relights the fuse of war between the two classes, and rebellions break out on every moon, planet and rock between Earth and the stars. And somewhere in the chaos, Tasneem Kyoh and David Dewbury still fight for mankind's future... a new Earth, and a new beginning. *The Colonists*, the second title in Jason Gurley's *Movement Trilogy*, continues the epic story of humanity's greatest struggle, and its desperate battle with its most powerful enemy: itself. *Voices From the Wreckage: Young Adult Voices in the #MeToo Movement* is an edited collection by Kimberly Greenfield Karshner (Lorain County Community College). This collection focuses on situating young adult voices in the #MeToo movement, and into American culture and identity. Children's and young adult literature is an area of study that has rapidly evolved in the past ten years, bringing previously silenced voices to light. This is especially true for YA LGBTQ+ voices, and also for young narrators who are not only discovering, celebrating, and coming to terms with their identities, but also dealing with assaults on their identities. This collection will build on what writers like Laurie Halse Anderson have begun, first with her groundbreaking book on sexual assault, *'Speak'*, published in 1999, and more currently, her follow-up book, *'Shout'* (2019). These authors continue what Anderson started, exploring texts from the perspectives of YA male and female voices, Native American and international perspectives, and LGBTQ+ character representation. Chapters investigate various literary forms such as graphic novels, memoirs, and novels, and cover topics such as sexual desire, consent, trauma, and survivorship. The literature featured in this volume will assure young people that they can tell their stories and that they will be heard. *'Voices From the Wreckage'* will be a valuable tool for anyone who teaches Young Adult Literature, or for those who are avid readers and fans of the genre. The authors in this collection are starting and continuing very important conversations on the topic of sexual abuse and trauma, a conversation necessary for the intended audiences of these books, and for adult readers and teachers who are facilitating the emotions connected to these topics. *'Cosgrove weaves a compelling web of circumstance that maps a city struggling with the loss of its youth to the Vietnam War, the hard edge of the civil rights movement and ferocious inner-city rioting... a whole-hearted evocation of people and places' - Independent Detroit 67* is the story of Motor City in the year that changed everything. Twelve chapters take you on a turbulent year-long journey through the drama and chaos that ripped through the city in 1967 and tore it apart in personal, political and interracial disputes. It is the story of Motown, the break-up of The Supremes and the damaging disputes at the heart of the most successful African-American music label ever. Set against a backdrop of urban riots, escalating war in Vietnam and police corruption, the book weaves its way through a year when soul music came of age and the underground counterculture flourished. LSD arrived in the city with hallucinogenic power and local guitar band MC5 - self-styled holy barbarians of rock - went to war with mainstream America. A summer of street-level rebellion turned Detroit into one of the most notorious cities on earth, known for its unique creativity, its unpredictability and self-lacerating crime rates. The year 1967 ended in social meltdown, rancour and intense legal warfare as the complex threads that held Detroit together finally unravelled. *Georgie* is young, she has her entire life ahead of her, or so she thought. A trip to the doctor, leads her to find out she is dying. Each day grows harder and more difficult to get out of bed. She just wants to spend what time she has left in the arms of her dream lover. - This book is for anyone that has lost a loved one and wished that Vampires were really real. This work is the only comprehensive guide to sequels in English, with over 84,000 works by 12,500 authors in 17,000 sequences. Our world today is not only a world in crisis but also a world in profound movement, with increasing numbers of people joining or forming movements: local, national, transnational, and global. The dazzling diversity of ideas and experiences recorded in this collection captures something of the fluidity within campaigns for a more equitable planet. This book, taking internationalism seriously without tired dogmas, provides a bracing window into some of the central ideas to have emerged from within grassroots struggles from 2006 to 2010. The essays here cross borders to look at the politics of caste, class, gender, religion, and indigeneity, and move from the local to the global. *Rethinking Our Dance*, the second of two volumes, offers a wide range of essays from frontline activists in Afghanistan, Argentina, Brazil, Niger, and Taiwan, as well as from Europe and North America that address the question, "What do we need to do in order to bring about justice and peace?" *The Movements of Movements* aims to make the bewildering range of contemporary movements more meaningful to the observer and also to be a space where global movements speak to each other. This book will be useful to all who work for egalitarian social change—be they in universities, parties, trade unions, social movements, or religious organisations. Contributors include Kolya Abramsky, Ezequiel Adamovsky, Ousseina Alidou, Samir Amin, Chris Carlsson, John Brown Childs, Lee Cormie, Anila Daulatzai, Massimo De Angelis, The Free Association, David Graeber, Josephine Ho, John Holloway, François Houtart, Jeffrey Juris, Michael Löwy, Tomás Mac Sheoin, Matt Meyer, Muto Ichiyo, Rodrigo Nunes, Michal Osterweil, Shailja Patel, Geoffrey Pleyers, Stephanie Ross, and Nicola Yeates. *Forced into the war to save their remaining territory, the indigenous peoples join the Huhui in their continuing struggle against the Shan."* Captain Anderson Grant of the corporate starship *Nexus* boldly explores alien worlds (and occasionally the alien women, too). Grant and his crew struggle with the company's version of manifest destiny, as well as its attempt to coerce them into military force. They begin to question whether the largest threat to their mission and their safety will come from outside the *Nexus* or from the company that respects them more for their genetic possibilities than their individuality.
